LOCAL TEAM TO PLAY IN TREMONTON TOMORROW

The Atlas Sure Shots baseball team of the City League is going to Tremontion tomorrow for a contest with the fast team of that town. Manager Roy Stone of the Sure Shots expects his men to pull down a victory and will line up as follows:
Paulsen, catcher; Haywood, pitcher; H. Stone, first baseman; G. Weisler, second baseman; R. Stone, shortstop; E. Butterfield, third baseman; O. Richardson, left field; A. Emley, center field; E. Stone, right field, and Drake, substitute.
The local team may also play a game at Tremontion, Monday.

BOARD OF EDUCATION BORROW \$2000 TO MEET BILLS

At the regular weekly meeting of the city board of education held last night, the clerk, Miss Viola Clancy, was authorized to advertise for bids for the coal, which will be used during the 1914-15 school term. The amount of coal to be contracted for will be based on the tonnage used last year and the contract will be the largest single award made by the board. It is expected that the contract will be awarded at the meeting on September 18.
The board also authorized the payment of \$1700 to the J. P. O'Neill Construction company for the paving done in front of the high school and Central Junior high school on Twenty-fifth street, providing that the accounts check up properly. In order to meet this obligation and the August bills, an order for the borrowing of \$2000 was approved by the board. The contractor did the paving at a 5 per cent discount from the price paid by Ogden City for the payment of cash instead of city improvement warrants.

PRESENT CONDITIONS IN EUROPE TO BE REVIEWED

Alva L. Scoville, who recently returned from an extended trip abroad, will speak at the conjoint session of the Mutual Improvement Association of the Second ward, Sunday evening at 7 o'clock, on "Present Conditions in Europe."

TWO CHILDREN ARE GIVEN \$100 EACH

S. N. Atwood, a mining man, deposited \$100, each for two nice little girls in one of the savings banks of Ogden today at 4 per cent annually and compound interest quarterly, which they can draw, principal and interest, when they are eighteen years of age or about \$175. That is not very much money for a girl eighteen years old, but many men have built up a very large fortune on less money, and that much money with good morals and a good name is a big start in the right direction.
Mr. Atwood has come to Ogden many times in the last twelve years and he has always been a lover of good children.
Mr. Atwood believes each one should make the world better by living in it and doing kind acts.

RECALLS BATTLE WITH JOSEPH H. MARTIN IN GRAND ISLAND

Detective Charles Pincock returned last night from Minneapolis, bringing with him Joseph Vogaty, who is to stand trial on a charge of forgery. According to the officer, Vogaty confessed to being guilty, stating that he was hard pressed for money to buy the necessities of life for his wife and child at the time he forged the name of E. R. Hogan to a check. He is only 22 years old.
The Ogden officer reported having had a pleasant trip, being well treated by the officers at Minneapolis, and also at Grand Rapids and Omaha, where he stopped for a few hours. At Minneapolis, he was taken through the state capitol by Detective Gleason, and for an automobile trip around the city and in St. Paul by Chief Oscar Mortenson of the Minneapolis police department. On the return trip, he kept his prisoner overnight at Omaha and on the following day went to Grand Island, where he passed a number of hours with Chief of Police Arbogast. During his visit with Chief Arbogast, the Grand Island officer related the story of his experience with Joseph Henry Martin, the recently convicted blackmailer and his cousin, Harry Martin, in January, 1912.
According to the story, the Martins were riding into Grand Island on top of a box car, when a brakeman ordered them to descend and, upon being met with a refusal, climbed onto the car to enforce the order. The Martins, however, soon put him "hors de combat" and, as the train slowed down at the entrance to the Grand Island railroad yards, they alighted, but not without being seen. Fearing pursuit, they ran on to a by-street and met two bicyclists and forcibly took their bicycles.
In the meantime, the police department had been notified of their leaving the train and were on the job by the time the bicyclists were held up. The two Martins had proceeded far on the stolen machines, when they caught sight of some of the officers coming toward them from the opposite direction. At this, they dismounted and ran into a lumber yard where they brought to bay, with Chief Arbogast and Joseph Martin covering each other, one with a Winchester rifle and the other with a six-shooter. Had it not been for his having a Winchester, Chief Arbogast stated, Martin would have killed him.
The cousins were taken to the station, the officers intending to make a felony charge against them for the forcible taking of the bicycles, but a few days later, on information from Ogden people favorable to the past reputations of the two men, a misdemeanor charge—that of stealing the bicycles—only—was laid against them. They pleaded guilty and were each fined \$5, which they paid. Before leaving Grand Island, Joseph Martin presented Chief Arbogast with his six-shooter, and the chief displayed it to Detective Pincock while telling the story.
The Ogden officer mentioned the approximate amount of the rewards that had been offered for the capture of Joseph Martin to the Grand Island officers and he says they "looked sick" when they learned what they had missed by letting him off easy.

POCATELLO PLANS TO IMPROVE ITS STREETS

Manager J. P. O'Neill of the O'Neill Construction company returned from Pocatello, Ida., last evening where he spent a few days considering bids for paving work in that city. He states that his company was the lowest bidder on street paving on two kinds of material but that it is not certain as to what kind the city commissioners will use. He is of the opinion, however, that one of the two kinds included in his bids will be accepted and that his company will be awarded the contract.
Mr. O'Neill says that Pocatello is in a flourishing condition and that plans and specifications have been made for street and sidewalk paving that will cost in the neighborhood of \$300,000 and that there undoubtedly will be considerable activity there next year in paving extensions. The cost of the street paving on which bids recently have been received amounts to about \$45,000.

OFFENDERS IN THE MUNICIPAL COURT

William Dailey was given an alternative sentence of \$30 or 30 days this morning in the municipal court for engaging in a fight on the street. His opponent, James Murray, got off with a \$5 or five-day sentence. According to the testimony in addition to injuring Murray with his fists, Dailey committed the additional crime against the peace and dignity of the community of giving vent to a stream of vile language during the affray.
H. Moore was given a \$15 or a 15-day sentence for committing a nuisance on the street. He was arrested by Officer Martin last night at the Bamberger passenger station.
Ed Lavigne, J. W. Moon and A. Jamieson, drunks, were given suspended sentences. Joe Combs was also given a suspended sentence. He pleaded guilty to a charge of trespass.
Washington, Sept. 5.—British authorities have directed that no British passenger ships sailing between England and the United States carry guns. Orders to that effect have been received at the embassy.

ADULT SCHOOL CLUBS OF COUNTY TO BE REORGANIZED

N. N. Petterson, superintendent of the county schools, states that the "Adult School clubs" will be reorganized about November, and will be continued until April 1. The clubs accomplished a great deal last year and it is certain that there will be increased interest this year. The clubs have been instituted for the purpose of affording an opportunity to those who are rather advanced in years but backward in book learning, to spend their winter evenings in directed study.
None of the teachers of the schools, nor the principals, will be permitted to become members of the organization, but they are required to act as educators and advisers at the will of the members of the clubs. The county board will permit the use of the school houses by the clubs, free of charge, the organization to pay light and fuel expenses. The agricultural

college is aiding in the project by furnishing the clubs with farm bulletins and other literature of worth, and the school board permits the use of books that have been discarded.
The subjects taken up before the clubs and elaborated on by the schoolmen and others qualified to intelligently discuss them, are grammar, arithmetic, geography, spelling, domestic science and agriculture, together with business methods, and other subjects of especial value to people living farm lives. Regular school children cannot become members.
Following is a list of the county teachers for the year:

HABEAS CORPUS CASE IN MILDRED SHAW AFFAIR

The habeas corpus proceedings in relation to the guardianship of Mildred Shaw, deceased, was called at 2 o'clock this afternoon in Judge Howell's division of the district court, but the attorneys for the respondent, not having completed the pleadings, a recess was taken by the court until 2:30. The case is being heard on its merits this afternoon.
A partial answer to the writ, filed by Mrs. Rosilla Spracher, who is seeking the guardianship of the child, claims the right of guardianship on the grounds that the child was taken from the care and custody of the father, James Shaw, by the terms of a decree of divorce, that the mother, in whose care the child was given, has since died and that the child was subsequently delivered to the grandmother, Mrs. Spracher.
The respondent further says that the father is not a fit person to have the care and custody of the child, as he is addicted to the excessive use of intoxicants and that he resides in Arizona where he will take the child, there being no relative there who can give the minor proper attention.
Judge A. C. Horn was entered on the records as associate counsel for the respondent.

SHOOTING ON WEST THIRTIETH STREET

Mrs. Voss of 156 West Thirtieth street had the uncomfortable experience of having a bullet from a 22 calibre rifle pass close to her head about 5 p. m. yesterday, while standing in the yard at the rear of her residence. The bullet evidently had been aimed at a chicken owned by E. N. Williams, who lives at 152 West Patterson avenue.
Other people in the same locality have had narrow escapes from being shot, while doing their evening chores.

JUDGE V. C. GUNNELL COMING HOME WITH BRIDE

Judge Volney C. Gunnell departed from Ogden last Wednesday, carrying locked up within his heart a great secret. The secret, however, leaked out today and the many friends of the local juvenile court official will be surprised to learn that "Cupid" is involved.
Judge Gunnell and his bride are expected to arrive in the city from Denver, Colo., late this afternoon, doubtless unprepared, but willing, to receive congratulations.

London, Sept. 5, 12:17 p. m.—A dispatch to Reuter's Telegram company from Ostend, Belgium, says advices from Brussels represent that city as extremely quiet, since most of the German army of occupation has been sent to the vicinity of Termonde, where fighting is going on.
